JUNE 14, 1918.

THE ADVERTISER'S SEMI-WEEKLY

Know Thyself

NOT many of us know these Islands of ours; we may think we do but in reality we are in profound ignorance on many points that really count. Many of us can reel off reams of information on the beautiful scenery of the Islands, the wonders of the Volcano, the beauties of Waimea canyon, the ever changing charms of the Pali, the the food products locally produced and only regreatest extinct crater, these and a dozen other quiring a short period of preference from local buypoints of scenic interest.

Some of us have seen these points, or most of them, and we have read of them in the literature are proving more popular with seriously inquirso ably and excellently prepared by the promotion ing men and women than those of the army. The committee that it at least seems as if we knew big guns, the quick firers, the brisk machine guns, them. This is interesting to the tourist, useful in the rows of shells, the trench tools and weapons. attracting travel hither.

try, the thousands of men it employs, the annual teous men in uniform to tell about them. Many output of the mills, the acres under cultivation a man has walked away from the big army show and still others are well posted on the growing tents the past two days with a very heightened and the canning of pineapples. Yet all of us have idea of what a man has to know about his busibeen woefully ignorant about the things that we ness to be a non commissioned officer. now find counts. We have not known what we were raising in the way of food stuffs and what we side islands to Honolulu, to renew acquaintance can raise. We know that some individuals and ships and form new ones, while it likewise has companies are raising cattle, some raising swine, brought Lonolulans face to face with evidences but how extensive the industry or industries are we are uninformed. In other words we are generally ignorant of our resources and have been satissied to remain in ignorance until now we find we that its fuel is a Mani-produced alcoholic substimust depend largely upon ourselves for our subsistence

residents of Honolulu and of Hawaii nei to learn something about themselves and their resources oi" than this week. There will not be another such for four years for Honolulu can always, as the center of population, furnish the largest and most complete exhibits at a fair such as is now in progress. For three years the fairs will be held on the other islands in turn.

The first Territorial Fair not only ranks with the ordinary state fair but more nearly approaches an exposition. One cannot see it in an afternoon or an evening. It takes several visits and if one will attend each day or evening from now until the close he will not more than see it all.

Obligation to Labor

W HEN it comes to the control of the entire American railroad system by national aualkority we are compelled to deal with large figures. Congress has appropriated nearly a billion dollars for compensation and another half-billion for necessary financing. Already there are complaints against the proposed increase in the wages of 2000,000 employes amounting to \$300,000,000 a year, but as the Wage Commission points out, this is to be compared with existing wage payments aggregating \$2,000,000,000.

consider carefully the sober words of the commission. The \$300,000,000, which is a wage increase of fifteen percent in the face of a higher passed providing for the registration of Canadian last Saturday. cost of living known to be much greater than that, boys of nineteen. Up to the age of twenty two no "s not", the commission says, "one dollar more exemptions are being allowed now for those men then justice at this time requires. It will make in Class One who are physically fit. This is the hard places smoother for many who are now in government's answer to the wholesale granting of side need. It gives no bounty. It is not a bonus. exemptions in Quebec. It is no more than an honorable meeting of an These drastic changes in the working of the Con-- Sation

reditably than by meeting honorably an obligathou to labor.

What Money Is For

increase the results of their application is not to hir that province hard. get money for its own sake, but to get those things which sustain our lives and minister to our comfort and enjoyment. What really matters is not the amount of money we get, but the amount of only a medium of exchange, something that we is once for what we give in labor or the product at latest, in order to pay it out for what we wish to obtain in other labor or the product of labor. those in charge. The things really exchanged are the labor or seras e or their products, and the money only enables is to bring about the exchange of what we have

What we get for our work, then, be it the work communic or brain, is measured not by the number the in rent for shelter, food and raiment and the doubtful that there is to be a great sea fight is as a pleasures and enjoyments of life. #### MILLION DOLLAR ROAD BUILDING PROGRAM STARTS

Supervisors Authorize Mayor To Sign Contracts For Two Important Units of General Plan

KALAKAUA EXTENSION WORK BEGINS AT ONCE

Fort Street Project To Become Reality—Belt Highway Part of Improvements Contemplated

Honoluly started its million dellar good building program for 1918 last night when the board of supervisors thorized Mayor Joseph J. Fern to in contracts and approve bonds in connection with two important projects ing plan. These two pieces of work lich are to be started at once, are the ension of Kafakana Agenne and paving of streets in the downtown listrict called the Port Street project. Other road projects that enter into the sugram for the year and to be started without delay are the paving of a net work of highways in the Iwilei district and the building of the belt rend, the latter to run in cost to a half million. The Belt Road

The overshadowing work of the year will be the long sought helt road and due to the interest that the federal ject after it had been brought to real ization by members of the chamber of commerce by the sale of territorial bonds, the new bickway will be the best road in the Territory and equal Fourth Grade in all respects to great highways on the mainland. Through the aid that Elizabeth Taite it to be given by the government what Recital—"Hats Off, the Flag Is ordinarily would have cost the Terri-Passing By".
